

Smith Island Waterman's Glass Float Hunt

What:

34 glass floats (about the size of an orange) will be hidden during the project period and engraved with a number and the year. Most floats are a solid color except for four special multi-colored floats that are hand-blown by glass artist Jeffrey Auxer of Berlin, Maryland. These special floats will be hidden on the weeks surrounding the Fourth of July and Labor Day (in addition to the regular floats) and will be marked as A, B, C, & D.

When:

The hunt begins Memorial Day weekend and ends Labor Day weekend. Floats will be hidden at various times once weekly during the hunt period - one on Tylerton and one on Smith Island Road (between Ewell and Rhodes Point).

Where:

The glass floats will only be hidden in public areas (no private property) a few feet from the roadways. On Tylerton along public walking areas and on Smith Island Road between the observation deck in Ewell and the bridge in Rhodes Point (see tan lines on the maps below).

Et Cetera:

This is finders keepers, but we ask that you only keep **ONE FLOAT PER HUNTER, PER YEAR, PLEASE** (special floats not included). Keep looking until you find one! If you find a second float, feel free to leave it where it is or re-hide it! If you choose to re-hide a float, please be sure to follow the above rules and stay off private property. Be prepared for your quest...wear long clothing and bring bug spray.

Find a Float?

If you find a float, please post on Facebook the float number or letter found at: [facebook.com/glassfloathunt](https://www.facebook.com/glassfloathunt)
